VISITORS' COMMENTS/PRESENTATIONS

A parent of a Northbrook Junior High student requested consideration for their student to return to in-person learning this spring, given the recent CDC guidelines revising the social distancing to 3-6 feet.

SUPERINTENDENT'S REPORT
(Board Calendar Review)

The Board reviewed scheduled topics and reports for upcoming board meetings.

(Enrollment)

The enrollment report for March was presented, and a corrected February report was included.

(Community Health Metrics)

Dr. Hewitt presented an overview of the Northfield Township COVID-19 Elementary School Public Health Dashboard and the Cook County Travel Quarantine map. He noted that of the families who responded to a recent travel survey, 349 are traveling, with 225 traveling to a state currently rated orange. The map will be updated March 23 and will be used to determine which students must quarantine upon return.

(Course Placement at GBN)

Dr. Hewitt reported that GBN course placement information for this year's 8th grade class was shared in the weekly NBJH newsletter and posted on the website. The process for placing the 8th grade class was similar to previous years, except that the PSAT was not administered due to the pandemic. MAP data for English language arts and math was used instead.

(8th Grade Graduation)

Dr. Hewitt shared that NBJH Principal Dr. Meek recently held an informational Zoom meeting with 8th grade parents to discuss the options for holding this year's graduation ceremony. One option is to have an outdoor event at Glenbrook North football field on May 30. The other option is to hold a drive-up event similar to last year's at NBJH on June 1, with a rain date of June 2. Dr. Meek will follow up with a survey of parents.

(ISBE/IDPH Updated Guidance)

In response to the public comment/parent request, Dr. Hewitt indicated that there are issues and challenges with moving students at this late stage of the school year. He identified three reasons for not adjusting this year's educational model:

1. When parents made their second-semester choice of either five days per week in-person or five days per week remote learning, the district stated it would adhere to 6-foot physical distancing as a way to mitigate the risk of spread of COVID-19.
2. If social distancing is reduced to less than 6 feet and a student tests positive for COVID-19, then all of the students sitting near that child would have to quarantine a minimum of 10 days.
3. Any student who would switch from remote to in-person now would have new teachers, which is not educationally sound with only eight weeks of school remaining. It takes several weeks for a teacher to get to know new students, including their learning styles and abilities.

Dr. Hewitt provided an overview of the Illinois State Board of Education and the Illinois Department of Public Health revised guidance for schools that was released earlier this month. Principals are evaluating social distancing for

classroom space to determine how many students can safely fit in each classroom. The guidance reinforces essential mitigation strategies currently in place while easing social distancing for in-person learning from 6 feet at all times to a minimum of 3 feet for students and fully vaccinated staff. At this time, school districts must provide a remote learning option during the 2021-22 school year for families of students who are at increased risk of severe illness or who live with people at increased risk. The township districts are exploring a partnership to provide services if districts have only a small number of remote learners at each grade. As plans for next school year take shape, communication will be shared with parents.
